The following is an examiner's statement of reasons for allowance: Claims 1, 4, and 5 are allowable in that none of the art shows the sensor including a coil wound around an elastic member with a hollow portion, where the sensor is located in a recess in a mat, in combination with the remaining claim features. The specification states that such a sensor structure prevents the sensor from collapsing and ensures elastic restoration of the coil.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
